Allied Healthcare Products, Inc. - Global Support of Life

Allied
HEALTHCARE PRODUCTS INC.

For more than half a century, Allied Healthcare Products has been supplying quality adapters, couplers and fittings to our customers. Our history dates back to the medical department of National Cylinder Gas (NCG), which produced gases in cylinders for hospitals in the 1930s and early 1940s. In 1953, NCG installed its first piped medical gas system in a hospital. Over the years the NCG Medical Division evolved into the Chemetron Medical Corporation, and finally became Allied Healthcare Products, Inc. in 1980. In 1986, Allied acquired Oxequip Healthcare Industries, a major manufacturer of construction and patient care products since 1936.

Through such acquisitions and transformations we have sought to strengthen our leadership position in medical gas, respiratory therapy, and emergency medical products throughout the world.

In an age when the world has become a global village, we at Allied Healthcare Products continually renew our commitment to the "Global Support of Life."

Hose Ferrules

Ferrule

15-90-0050 (10pk)

For all 1/4" hose assemblies

15-90-0049 (10pk)

For all 5/16" hose assemblies

Although the preparation of hose assemblies by the user is discouraged, information on ferrules is included for convenience.

Conductive Medical Grade Hose (UL Listed)

Chemetron® Bulk Hose is made from carbon permeated neoprene to provide a conductive path from end fitting to end fitting when hose assembly does not exceed 30 feet in length. Chemetron® Conductive Hose meets all requirements as specified in NFPA 99. This hose is color coded to conform to CGA C-9 standards.
