

# The HDx Backboard®

The HDx is a leading composite spine immobilization board known for its unsurpassed rigidity and lightweight construction.

The seamless HDPE shell is fluid-resistant, and the composite internal stiffening system provides unmatched rigidity with minimal x-ray obstruction.

- Strong and durable, yet extremely lightweight at only 13.6 lbs
- Low profile design is only 1.5" thick
- 10 large elevated hand-holds for easy patient handling
- Separate strap holes for easy immobilization
- One-piece, seamless HDPE shell is impervious to blood and other substances for high resistance to contamination, corrosion or decay

## SPECIFICATIONS

**Length:** 72" (182.88 cm)  
**Width:** 16" (40.64 cm)  
**Depth:** 1.5" (3.81 cm) including runners  
**Weight:** 13.6 lbs. (6 kg)  
**Capacity:** 500 lbs. (226 kg)  
**Material:** High-density polymer
