

Oxygen Therapy Disposables

NASAL CANNULAS — Latex Free Tinted & Clear — Adult, Pediatric, Infant

Over the ear style to provide low flow oxygen with anti-roll guard for better fit, comfort and positioning. Newly designed softer tubing connector for easier fit. Available in three-channel crush resistant Sure Flow tubing. Better comfort for long term use. Packaged in easy-open perforated bags.

CLEAR CURVED SOFT TIP NASAL PRONGS

New curved, soft tip design conforms to patient's nose, providing a more comfortable fit and longer usage.

Clear curved pediatric cannula with 7' Sure Flow tubing, 50/case 33800

Clear curved adult cannula with 7' Sure Flow tubing, 50/case 33801

ADULT SOFTIE WITH SMOOTH BORE TUBING

Cannula with 4' tubing, 50/case 33207

Cannula with 8' tubing, 50/case 33206

ADULT SOFTIE WITH SURE FLOW TUBING

Cannula only, 50/case 33208

Cannula with 7' tubing, 50/case 33239

Cannula with 10' tubing, 25/case 33240

Cannula with 15' tubing, 25/case 33241

Cannula with 25' tubing, 20/case 33242

Cannula with 35' tubing, 15/case 33243

Cannula with 50' tubing, 10/case 33245

INFANT AND PEDIATRIC SOFTIES

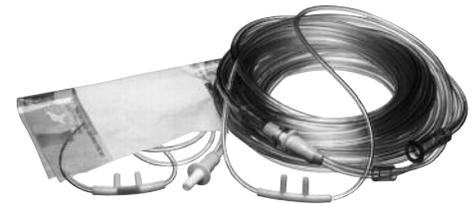

Cannula infant prongs with 7' Sure Flow tubing, 50/case 33504

Cannula infant prongs with 7' Sure Flow tubing, 25/case 33505

Cannula with pediatric prongs with 7' Sure Flow tubing, 50/case 33604

SMART SOFTIE TWO + ONE

Two cannulas, two changes, one supply line! Reduces costs by changing out the cannula, but reusing the supply line.

2 Cannulas + 7' smooth bore tubing, 50/case 33209*

2 Cannulas + 7' Sure Flow tubing, 50/case 33250

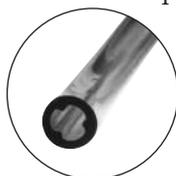

2 Cannulas + 25' Sure Flow tubing, 10/case 33252

*33209 not CE approved

TUBING — Latex Free Oxygen, Corrugated and Suction

CRUSH RESISTANT SURE FLOW OXYGEN TUBING

Prevents tubing from becoming occluded.

4' oxygen supply tubing, 50/case	64228
7' oxygen supply tubing, 50/case	64230
10' oxygen supply tubing, 25/case	64229
15' oxygen supply tubing, 25/case	64231
20' oxygen supply tubing, 25/case	64235
25' oxygen supply tubing, 25/case	64232
35' oxygen supply tubing, 20/case	64233
50' oxygen supply tubing, 10/case	64234

SMOOTH BORE OXYGEN TUBING

4' oxygen supply tubing, 50/case	64199
7' oxygen supply tubing, 50/case	64200
10' oxygen supply tubing, 25/case	64221

QUICK CONNECT OXYGEN SUPPLY TUBING

Eliminates the need for nut and stem adapters. DISS connection one end, standard other end, Sure Flow tubing.

7' length quick connect to DISS, 50/case	64330
15' length quick connect to DISS, 25/case	64331
25' length quick connect to DISS, 25/case	64332

BULK TUBING

BUBBLE TUBING

100' smooth bore tubing, bagged and packaged in convenient dispenser box. I.D. at bubble approx. 1/4". Bubble approx. every 42".	64203
--	-------

SMOOTH BORE TUBING

50' roll of 1/4" smooth bore tubing	S1166
50' roll of 3/16" smooth bore tubing	S1166A

CORRUGATED AEROSOL 22mm TUBING

6" length, 50/case	81343
12" length (segmented every 6"), 50/case	81344

100' LENGTH PACKAGED IN DISPENSER BOX

22mm I.D. segmented every 6" for warm/cool mist applications 81329

SUCTION TUBING

Suction tubing kit includes: One 15" blue tipped tube 1/4" I.D. (S615473) and one 72" blue tipped tube 1/4" I.D. (S615725) S610100

13" blue tipped	S615473
72" blue tipped	S615725

Clear soft vinyl construction and cotton coated strap provides patient comfort and accurate airway assessment and management. Newly designed softer tubing connector for easier fit. Strap ends secured to prevent mask separation. Packaged in easy-open perforated bags.

SIMPLE OXYGEN MASK

Medium concentration, barbed fittings to prevent patient disconnect, elastic strap, adjustable noseclip, 50/case

Adult with 7' tubing	64041
Adult with 7' Sure Flow tubing	64041-SF
Adult without tubing	64049
Pediatric without tubing	64091
Pediatric with 7' tubing	64092

HIGH CONCENTRATION MASK

Barbed fittings to prevent patient disconnect. Reservoir bag without check valve, safety vents open, 7' tubing, elastic strap, adjustable noseclip, 50/case

Adult	64007
Adult with Sure Flow tubing	64007-SF
Pediatric	64009

NON-REBREATHER MASK

Barbed fittings to prevent patient disconnect. Reservoir bag with check valve, one safety vent open, 7' tubing, elastic strap, adjustable noseclip, 50/case

Adult, with Safety Vent	64060
Adult, with Safety Vent with Sure Flow tubing	64060-SF
Pediatric, with Safety Vent	64090
Pediatric, with Safety Vent with Sure Flow tubing	64090-SF
Adult, without Safety Vent (for highest concentration available)	64059
Adult, without Safety Vent with Sure Flow tubing (for highest concentration available)	64059-SF

VARIABLE SELECT MASK

24%-50%, humidity hood, color-coded diluters, 7' tubing, elastic strap, adjustable noseclip, 50/case

Adult	64008
Adult with Sure Flow tubing	64008-SF
Pediatric	64003

AEROSOL MASK

Elongated with elastic strap and adjustable noseclip, 50/case

Adult	64083
Pediatric	64093

FACE TENT MASK

Under the chin comfort for high humidity. Accepts 22mm corrugated tubing.

Adult size only with elastic strap, 50/case

60280

TRACHEOTOMY MASKS

Both have swivel adapter. Accepts 22mm corrugated tubing.

Adult with elastic strap, 50/case	61075
Pediatric with elastic strap, 50/case	61076

NEBULIZER THERAPY & HUMIDIFIERS — Latex Free

NEBULIZER THERAPY

B&F hand held nebulizer kits are offered in a wide variety of configurations, and are designed for easy assembly and cleaning.

- Available with redesigned soft connectors.
- Easy-to-read measured medication jar (1cc to 15cc).
- Precise venturi system effectively delivers 70% of aerosol particles within the 1 to 4 micron range.
- Spill-proof designed lid featuring a sure seal cap.
- Side entry tubing design allows nebulizer to stand on its own while adding medications, freeing up both hands and reducing the possibility of contamination.
- User-friendly large threaded lid provides easy assembly, preventing cross threading.
- Packaged in easy-open perforated bags.

LATEX FREE HAND HELD NEBULIZER

Nebulizer, mouthpiece, tee, smooth or Sure Flow, 7' tubing and 6" flex tube, 50/case	61399 61399-SF
Nebulizer, mouthpiece, tee and 7' tubing, smooth or Sure Flow, 50/case	61400 61400-SF
Nebulizer with 7' tubing, 50/case	61401
Nebulizer kit without tubing, 50/case	61403

MASK & NEBULIZER COMBINATION

Comfortable B&F aerosol mask, conveniently packaged with nebulizer, reduces costs and saves time gathering parts.

Adult mask with nebulizer and 7' tubing, smooth or Sure Flow, 50/case	64085 64085-SF
Pediatric mask with nebulizer and 7' tubing, 50/case	64095
Pediatric mask with nebulizer and 7' Sure Flow tubing, 50/case	64095-SF
Nebulizer only, bagged, 50/case	61402-BB
Aerosol tee, 50/case	61404-B
Nebulizer only, 2 per bag, 25/case	61402-BB2

Humidifiers: 300cc working volume with 3psi safety relief pop-off valve or newly designed humidifier with 6psi pressure relief pop-off valve. To be used in conjunction with concentrators, cylinders and liquid systems, as well as wall outlets.

DISPOSABLE HUMIDIFIER WITH METAL NUT

Metal nut humidifier, blue cap, 3psi, 50/case	64376
Metal nut humidifier, white cap, 6psi, 50/case	64378

DISPOSABLE HUMIDIFIER WITH PLASTIC NUT

Plastic nut humidifier, blue cap, 3psi, 50/case	64375
Plastic nut humidifier, white cap, 6psi, 50/case	64377

BEAR 33

72" main tube, manifold and exhalation valve assembly, 78" pressure airway line, 78" exhalation line, 6" flex tube, retainer clips, elbow with port inlet, 15/case

INTERMITTENT POSITIVE PRESSURE BREATHING (I.P.P.B.) CIRCUITS

FOR PURITAN-BENNETT AND BIRD RESPIRATION UNITS

Manifold, exhalation valve, nebulizer, 39" main tube, 78" exhalation line, 78" nebulizer line, Bird tube adapter, drive line tee adapter, mouthpiece, retainer clips, 50/case

81351

FOR PURITAN-BENNETT AP4 AND AP5 I.P.P.B. THERAPY UNITS

Manifold, exhalation valve, nebulizer, 39" main tube, 78" exhalation line, 78" nebulizer line, mouthpiece, retainer clips, 50/case

81360

VENT CIRCUIT TUBING HANGER

ABS Material • Ball Joint/"C" Clips
For corrugated and small bore tubing, 100/case

64600

MOUTH SEAL KIT

- Complete kit, 50/case 64015
- Nose clip only, 100/case 64019
- Cushion only, 50/case 64021

MOUTHPIECE, UNIVERSAL FIT

- Packaged in bulk, 100/case 64440
- Individually packaged, 100/case 64441

SUPPLY LINE ADAPTER

For extending smooth bore oxygen tubing. Tapered for excellent gripping.

- Adapter for oxygen line, 200/case 65100

OXYGEN NUT & STEM ADAPTER

- “Christmas Tree” Adapter 50/case 65401

CORRUGATED TUBING ADAPTERS

- Elbow adapter, 22mm O.D. x 15mm I.D., 50/case 64402

- Cascade adapter, 22mm I.D. x 22mm O.D., 50/case 64403

- 22mm O.D. x 22mm O.D., 50/case 64406

ONE-WAY FLOW VALVE

A performer in both circuit application and clinical tests.

- 22mm O.D. each end, 10/case 64407

OXYGEN ADAPTERS

22mm O.D. and barbed at opposite end.

- Oxygen mask adapter, to accept standard supply line tubing, 10/case 61015

- 22mm I.D. and barbed at opposite end, 10/case 61016

BACTERIA FILTER/CLEAR

Bacterial filtration efficiency — 99.8%.
Mean particle size 3.1 micron, lab report #18112.

- 22mm Male x 22mm Female, 50/case 64020

HYDROPHOBIC/BACTERIA FILTER

- 1/4" x 1/4" hose barb, 3/pkg. 01-90-3928

- 1/8" NPT x 1/4" hose barb, 3/pkg. 01-90-3100

DISPOSABLE COLLECTION CANISTER

- 1200 cc plastic canister, 4/case S1160-RPL

- 2000 cc plastic canister, 4/case S1160A-RPL

- 800 cc plastic canister, 5/case S1160B-RPL

- 800 cc plastic canister, 70/case S1160B-CS

HUMIDIFIERS, STERILE WATER, & COLLECTION SYSTEMS — Latex Free

PREFILLED HUMIDIFIERS

Save time, expense, and storage space by using this innovative interchangeable system which allows you to use the same prefilled container for both low and high flow applications.

- Easy snap-open top.
- Low profile with flat bottom.
- Quiet diffused oxygen flow.
- Audible alarm relief valve warns if patient tubing becomes occluded.
- Sterile closed system.
- Positive adapter seal.

350ml Prefilled humidifier with adapter, 12/case

61350S

550ml Prefilled humidifier with adapter, 12/case

61550S

ALP (Sterile Water and Saline Unit Dose Vials)

- Easy twist/pull-open top.
- Tapered tip for perfect fit to irrigation port of Ballard Trach Care® system.

3ml 0.9% saline vials; 100 vials/carton, 10 cartons/case 69993S

5ml 0.9% saline vials; 100 vials/carton, 10 cartons/case 69995S

15ml 0.9% saline vials; 48 vials/carton, 3 cartons/case 69915S

COLLECTION SYSTEMS

IN-LINE WATER & HUMIDITY TRAP CLEAR VIEW

Small bore tubing, downstream installation, easily cleaned in detergent or vinegar bath. Thoroughly rinse and air dry.

25/case

64597

CONDENSATION TRAP FOR LIQUID SYSTEMS

Sturdy vinyl bag, 500ml capacity with drain port. Connective tube is for a 3/16" hose barb. 25/case

64555

Sturdy vinyl bag, 500ml capacity with drain port. Connective tube is 1/4" I.D., 25/case

64554

IN-LINE "TEE" AND CORRUGATED TUBING COLLECTION SYSTEM

Can be attached to 22mm standard corrugated tubing.

Sturdy vinyl bag with drain port, 700ml capacity, 25/case

64550

MOUTH TO MASK RESUSCITATORS — Latex Free

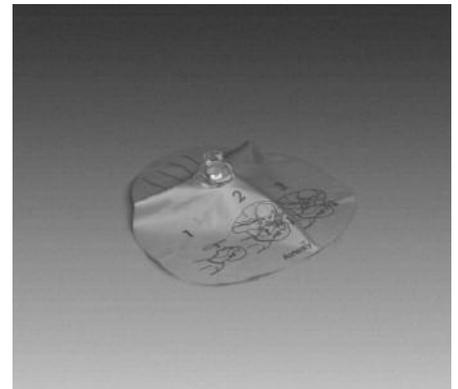

- Clear plastic; designed to fit adult or child.
- Soft inflated cuff.
- Ready to use masks — no assembly required.
- Patented single-use one-way valve with biological filter.
- Compact carrying case.
- Meets all clinical and technical requirements.
- Standard 22mm fittings — can be used with any resuscitator or bag mask.

MOUTH TO MASK RESUSCITATORS

Face mask with one-way valve and filter, 12/case	L62183
Face mask with one-way valve, filter and case, 12/case	L64184

Face mask with one-way valve, O ₂ inlet, filter, case and head strap, 12/case	L64186
Same as above, but with gloves and wipe, 12/case	L64186X
One-way valve with filter, 50/case	L62050

MOUTH TO MASK FACE SHIELD

Flexible face shield with one-way valve and filter, 50/case L63002

AEROSOL THERAPY CANOPIES, AIR SPLINTS & T.H.O.P. SLEEVE — Latex Free

CANOPIES

The following tent canopies are designed to tent manufacturer specifications. Please consult tent manufacturer service manual for proper canopy.

CAM4 Canopy	T6308
CAM4 Canopy, 12/case	T6308.1
CAM4 Canopy, 48/case	T6308.2
Misto.gen® with two 20" vertical and two 36" horizontal zippers, 30/case	68405
Ohio Ped Aerosol with two 36" vertical zippers, 30/case	68554
Ohio Ped Aerosol with two 20" horizontal zippers, 30/case	68555

NOTE: Connectors are not Latex free.

Canopy shown with the Timeter® CAM4 Mist Tent and the Timeter PCS414 Air Compressor

INFLATABLE AIR SPLINTS

Essential for any first aid supply, inflatable air splints provide immediate immobilization of injured limbs. Orally inflated via a screw air valve, the splint doubles as a self-contained tourniquet to stem the flow of blood and promote infection control. Transparent plastic and nylon zipper permit X-rays and constant observation of the injury.

STANDARD FEATURES

- Available individually and in kits.
- Individual packaged splints come in a variety of sizes for adults and children.
- May be washed and cold sterilized for reuse.
- Approved by Department of Defense Federal Supply Catalog and National Transportation Safety Board.
